

# Making Buildings That Make Our Builders The Best.

## Aviation Facilities

MESCO Building Solutions aircraft hangars are designed to meet a variety of aviation needs. Aircraft hangars present a unique challenge that clearly displays the flexibility of the metal building system. MESCO hangars provide a clear span design, which allows for column-free interiors with wide open floor space. Higher eaves are available in accommodating today's larger aircraft, allowing multiple door options including bi-fold, bi-parting, or stack leaf design.

In addition, MESCO has a variety of nested T-Hangar designs for storage of small personal aircraft. MESCO also prides itself on offering the following features for all aircraft hangars:

- Aesthetically pleasing appearance
- Standard and custom design options
- Fast and economical construction
- Ease of expansion
- Ongoing durability
- Reduced maintenance costs
- Long-term energy savings
